PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Engineer with hands-on experience in developing web applications using PHP (Laravel), JavaScript, and MySQL. Strong foundation in Object-Oriented Programming, Data Structures, and Software Development Life Cycle. Passionate about building scalable applications, solving real-world problems, and continuously learning modern development practices.

Education

Bachelor of Science in Information Technology

Islamia University of Bahawalpur

Oct 2021 – Jun 2025

Professional Experience

DevCastle

Trainee Web Developer

Bahawalpur, Pakistan

10th Mar 2025 – 10th Nov 2025

- Assisted in designing, developing, and maintaining web applications using PHP (Laravel), JavaScript, HTML, CSS, and MySQL.
- Developed and integrated RESTful APIs for efficient frontend-backend communication.
- Debugged and resolved software issues to improve application performance.
- Wrote clean, maintainable, and well-documented code following MVC architecture.
- Used GitHub for version control and collaborative development.
- Participated in code reviews and team discussions to ensure quality standards.
- Assisted in testing and deployment on local server environments.

Certifications

-
- Speak English Professionally by Georgia Institute of Technology
 - Virtual Assistant by Digiskills
 - Advanced Web Application Development by NAVTTC
 - WEB App Dev by Pearson
 - Full Stack Development by Board Infinity

Projects

Travel Guide Website

- Built a responsive web application using Laravel, JavaScript, and MySQL.
- Implemented user authentication, booking forms, admin panel, and destination management system.
- Designed relational database structure and optimized queries.
- Applied MVC architecture and followed SDLC practices.

Khata App (Expense Management System)

- Developed a financial record management system for daily expenses.
- Designed database schema to store, update, and retrieve financial records efficiently.
- Implemented CRUD operations and basic validation logic.
- Improved problem-solving skills by simulating real-world business use cases.

Skills

Technical Skills:

Programming Languages

- C / C++
- Python
- JavaScript
- PHP
- HTML5, CSS3, Bootstrap

Databases

- MySQL
- SQL Queries & Basic Optimization

Backend & Frameworks

- Laravel (MVC Architecture)
- React
- RESTful API Development

Software Development Concepts

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Agile Basics
- SDLC (Software Development Life Cycle)
- MVC Architecture

AI & Data Science

- Pandas
 - NumPy
 - Scikit-learn
 - Data Cleaning & Preprocessing
 - Supervised Learning (Regression, Classification)
 - Train-Test Split & Model Evaluation
 - Basic Understanding of Deep Learning
-

Key strengths

- Strong analytical and problem-solving skills
- Fast learner with growth mindset
- Effective team collaboration
- Good communication skills

Interests:

- Software development and problem-solving
 - Building scalable and efficient web/mobile applications
 - Exploring AI, data science, and automation
 - Continuous learning and professional growth
-
